## WORK EXPERIENCE

### Accenture Inc.

Sep 2023 - Present

Software Engineering Analyst - Application Development

Taguig City, PH

- Lead the development effort for the enhancement of several web apps, updating the legacy Node and .NET versions with code rewrites, making the apps more secure and up to date
- Resolved a 4-month old CI/CD issue, allowing development to resume for a critical app
- Developed a web app from scratch for a POC as one of the Front End Developers, developing the main landing page with dynamic data and keeping up with fast-paced development
- Leading an initiative for automation of status report sending, gathering requirements from stakeholders, which will save up to 15 minutes of work daily

### Pixel8 Web Solutions & Consultancy Inc.

Apr 2023 - Jun 2023

Front-end Developer Intern

Remote

- Developed and integrated 7 key deliverables for client applications.
- Led a team of 3 developers, ensuring efficient module delivery.
- Trained 8 group leaders on standardized workflows and Git CLI commands.
