SKILLS

Dev	C#, Entity Framework, JavaScript, VS Code, Visual Studio
Web	HTML, CSS, ReactJS, Blazor, ASP.NET MVC
Cloud	Azure Cloud Development: App Service, Functions, Storage Accounts, Key Vaults
Database	MS SQL, SQL Server Management Studio
Others	Git, Linux, Agile, Jira, SharePoint, Copilot Studio, Claude Code, CI/CD

WORK EXPERIENCE

Idemia <i>Software Developer</i>	Jul 2026 - Present <i>Makati City, PH</i>
--	---

- Developed fullstack web applications using .NET Framework, C#, ASP.NET MVC, and Blazor, delivering end-to-end features from database to UI
- Collaborated in an agile team environment, contributing production-ready code within the first month of employment
- Built and maintained REST APIs integrated with Microsoft SQL Server, optimizing queries for performance
- Managed source control and CI/CD workflows through GitLab, adhering to team branching and code review standards
- Utilized Entity Framework for data modeling and ORM operations across application layers
- Performed performance testing and load validation using JMeter to identify bottlenecks before release
- Leveraged SQL Server Management Studio (SSMS) for database maintenance, troubleshooting, and query optimization

Accenture Inc. <i>Software Engineering Analyst - Application Development</i>	Sep 2025 - Jul 2026 <i>Taguig City, PH</i>
--	--

- Developed an Azure Function integration to extract from the Airtable Enterprise API audit logs into an admin table as aggregated data, reducing manual review time by 80%
- Led the modernization of 4+ web applications by rewriting legacy Node, React, and .NET codebases, eliminating security vulnerabilities and extending application lifecycle by 3+ years
- Collaborated with US onshore team to migrate 30k+ records from an MS SQL DB to Salesforce, modernizing infrastructure and improving system maintainability for ongoing operations
- Conceptualized an AI-driven onboarding experience using Copilot that delivered dynamic, role-specific learning paths to new joiners, shortening the time-to-first-independent-task by 30% and significantly decreasing ad-hoc inquiries to supervisors

Associate Software Engineer - Application Development	Sep 2023 - Sep 2025
--	----------------------------

- Built a functional POC web app from scratch as a core Front End Developer, delivering a dynamic landing page that validated the core concept for stakeholder approval
- Diagnosed and resolved a critical 4-month stalemate in the CI/CD pipeline, unblocking the development workflow and restoring deployment velocity for a critical application

EDUCATION

Aug 2023	De La Salle University Lipa	BS Computer Science
June 2019	Batangas Eastern Colleges	Senior Highschool - ICT

CERTIFICATES

Nov 2024	Boomi Professional Integration Developer
Oct 2023	Microsoft Certified: Azure Fundamentals
Sep 2023	freeCodeCamp JavaScript Algorithms and Data Structures
Mar 2023	HackerRank JavaScript (Intermediate) Certificate

OTHER EXPERIENCE

Oct 2024	Presentation on Generative AI - Presented the impacts of Gen AI for a client visit
Nov 2023	Application Development Bootcamp FY24 - 91.15% final grade, among the top
